Collision Fatal To Coleman Man

Walter Kryzcka died Wednesday morning without regaining consciousness.

Walter Kryzcka, of Coleman was in a serious condition on Monday following a car accident near Cranbrook on Sunday morning. He was rushed to the Cranbrook hospital by ambulance with both legs broken, one of them being a compound fracture.

He was accompanied by his brother and sister-in-law, Mr. and Mrs. Joe Kryzcka, also of Coleman, and was travelling toward Cranbrook, his destination being Creston when the accident occurred. The car, travelling on a road under construction, reportedly left the road turning end over end being completely demolished.

Mr. and Mrs. J. Kryzcka, the former operating the vehicle, suffered cuts, bruises and shock. They were also hospitalized but their condition was not serious. Mrs. Kryzcka was released on Monday afternoon. Investigation of the accident and the assistance of the ambulance crew was undertaken by Constable Jack Gregory and George Howend.

Cubs Win Pass League Baseball Championship

The Coleman Cubs went on a hitting spree at the Coleman diamond on Friday evening, August 6, to score a decisive victory over the Hillcrest Miners by a 20-3 score, thus ending a best-of-five series for the C.N. Pass Baseball Championship.

The match provided Coleman's best batting display of the season as the locals collected twenty hits from the offerings of four Hillcrest pitchers.

Jimmy Kitaguchi batted five for five, Alex Kovack had five hits, Dave Pow four and Roy Hayashi three for three to lead the batting parade.

Homers were hit by Charlie Kitaguchi, Roy Hayashi and Alex Kovack, of the Cubs and Cecil Rhodes for the Miners.

"Lefty" Kimoto limited Hillcrest to six scattered hits and struck out nine to turn in another outstanding pitching performance.

Johnny Bianchini collected two hits to lead the Hillcrest club at the plate.

May Have Names Added To Voters' List

Voters who have not been canvassed by enumerators may still have their names added to official voters' lists and become eligible to cast ballots in the provincial general election, on August 17, providing they meet the necessary qualifications.

To have their names added to the official lists, which are now posted, they must make personal application to the enumerator or in their constituency by the end of this week.

To qualify for having his or her name placed on the voters' lists a person must be a British subject of the full age of 19 years on the date of the election and have resided in Alberta for at least 12 months and in the electoral division where the voting privilege is sought for at least two months.

CROW SERIES

The Coleman Cubs went one game up on the Hillcrest Miners in the C.N. Pass Championship series by virtue of a 5-1 decision in a thrilling match played at Hillcrest on Tuesday, Aug. 3. The Cubs now lead the series two matches to one.

The match was highlighted by "Stumpo" Kimoto's two-hitter pitching masterpiece. For seven innings Kimoto, who received perfect fielding support from his team mates, did not allow a runner to reach first base. Johnny Eick, Hillcrest hurler, very effective too as he limited the Cubs to nine scattered hits.

Dave Pow and Roy Hayashi each collected two hits a piece to lead the batting. Johnny Bianchini singled in the eighth and his brother "Whitley" in the ninth for the Hillcrest hits as the Cubs turned in their most spectacular fielding performance of the season, in support of a brilliant pitcher.

200 People Present At Legion Picnic

About 200 people packed their lunches and headed for Knowles' Ranch last Sunday when the Legion Picnic was held. Hot dogs, pop and ice cream were on the menu for the kiddies while the adults were satisfied with coffee. It has been reported that the picnic executive was one jump ahead of the kids this year for they had to bring twenty cases of pop back to town in the evening.

Races and games were played with young and old taking part. Some of the results were as follows:

Men's Horse Shoes—J. Lowe and P. Smith, 1st; T. Sudworth and B. Gillis, 2nd.

Women's Horse Shoes—Mrs. B. Lloyd and Mrs. B. Chermisky.

Baseball—Married men vs. single men ended with the score of 24-3 with the single men on top, naturally.

Sack Race—Won by P. Merlin.

The youngsters received about \$16 in prizes for their winnings.

A sing-song was held for young and old in the evening with the picnic breaking up and tired but happy members heading for home at 8 p.m.

Local and General Items

Mr. and Mrs. Joe Wavrean are Lethbridge visitors.

Mr. W. Roughhead is a patient in the Calgary General hospital.

Mr. and Mrs. H. Masien were Calgary visitors at the weekend.

John Liya was a Calgary visitor last week.

Mr. and Mrs. M. Michael are Seattle visitors.

Mr. and Mrs. Kinnear left Monday for a two week vacation to spent at the west coast.

Mrs. G. Booth, of Vancouver is the guest of Mr. and Mrs. S. B. Ryan.

BORN: To Mr. and Mrs. George Hallinan on Saturday, August 6, a daughter.

Dalton McCrea, of Macleod, is spending his vacation with his aunt, Mrs. A. McLean.

Mr. and Mrs. P. Handerek, of Lethbridge, are the guests of Mr. and Mrs. J. Krywolt.

Mrs. Allan Cameron and family were Medicine Hat visitors at the weekend.

Fred Joseph, Bill Anderson, Tommy Koury and Marcel DeHarnais were Fernie visitors over the weekend.

Mr. Mike Kish, of Calgary, is visiting friends in the Pass this week.

Mr. and Mrs. Wm. Gate left Sunday for an extended visit at the west coast.

Steve Vasek left for Cleveland, Ohio, where he will spend his vacation.

Mrs. S. Hatalchik and family are vacationing at Peace River with relatives.

Miss Sophie Badjoik, of Coleman is visiting in Calgary, the guest of Miss Clara Chuckla.

Mrs. Kay Smolek returned last week after spending a vacation at Vancouver.

Mrs. Wm. Martland is visiting friends at Edmonton and Wetaskiwin this week.

Mr. Steve Vasak left for Cleveland, Ohio, where he will spend his vacation.

Mrs. Rose Chikenda, of Calgary, was the recent guest of her brother-in-law and sister, Mr. and Mrs. J. Lepacek and Grace motored to Macleod on Friday.

Sapeta's Bowling Alleys and Billiard Room recently took on the new look by installing an attractive neon sign over the door.

Mr. J. Trstensky and son, Joe accompanied by Mr. and Mrs. I. Lepacek of Joliet, Illinois, and Mr. and Mrs. J. Lepacek and Grace motored to Banff on Friday.

Mrs. L. M. Brennan, of Trail, B.C. was a Coleman visitor last week renewing old acquaintances.

Mrs. E. Holstead and Mrs. A. Brocklehurst, of Calgary, were the guests this week of Mr. and Mrs. T. Holstead.

Mr. and Mrs. J. Hoyle and family left Monday for a vacation to be spent at Calgary and other points.

Mr. and Mrs. Johnny Morris and son David, of Hillcrest, accompanied by Mr. "Chic" Roughead, of Coleman, were Calgary visitors at the weekend.

AL MILLS TO FIGHT IN BELLEVUE

The widely known Al "Murder" Mills, Canadian champion, is slated to tangle with Lou Nouman, former weight lifting champion on Wednesday, August 18, in the sixth of series of wrestling bouts promoted for the enjoyment of Pass fans.

Mills weighs 250 and hails from Camrose, Alberta. He is leading contender for the world's championship and is considered as the roughest toughest wrestler in the ring today.

Lou Nouman, 235 lbs., of Victoria, B.C. thrilled the spectators in his former performances with Jerry Meeker, of Kansas City.

Promoters promise sport enthusiasts the best match of the season.

Passed With Honors

Donna Rae Emery, 13, was one of the proudest and happiest girls in town on Monday morning when she opened the Department of Education envelope containing her grade IX results, and found she had passed with honors.

Donna, the daughter of Mr. and Mrs. Sid Emery, of Coleman, has attended the Coleman schools for all but a few months of her school years. She takes an active part in all school and church activities and a very special interest in skating and hockey games.

THANK YOU!

I wish to thank all my friends for buying votes for me in the recent contest for Rodeo Queen. A special thanks to the local Elks for choosing me as their candidate, also to the committee who made such lovely gifts possible.

DOREEN JENKINS

Dominoes Trounced By Shaughnessy Club On Sunday

Shaughnessy, Caddilacs, 1947 Senior Fastball Champions, handed the Coleman Dominoes the trimming of the season when they won the first play-off game by a score of 16-0.

Showing full mastery at bat and taking advantage of all the errors, the visitors set a heart-breaking pace which the locals could not meet.

Gillis starting the scoring early in the first inning and was followed by Finley and Ingram. The next two frames were scoreless, but in the fourth Seray and Deak came in and from then on the runs literally poured over the plate.

Genero, for the locals, led the batters with three for four.

Dominoes also lost the exhibition tilt in the evening by a score of 5-1.

"Fats" McDonald took the mound for Coleman for the first five innings being relieved by Bill Skura, "Poach" Hieuka, scored Coleman's only run of the day which was a well placed homer.

The next play-off game will be played in Lethbridge on Sunday.

Former Coleman

Man Killed In

Fall

John Virabec, 40, of Bellevue and formerly of Coleman, was killed Sunday when he fell 50 feet from a steep cliff on the banks of the North Fork river 20 miles north of Lundbreck, breaking his neck.

The deceased was enjoying a weekend fishing trip at the time of the accident. He was accompanied by Victor Redig, of Bellevue.

Virabec, a bachelor, was born in Coleman in 1908 and had worked in the Hillcrest Mohawk mines for a number of years.

An inquest into the cause of death was held in Blairmore on Monday by order of Coroner W. A. McLeod, of Pincher Creek. The verdict brought in was "Accidental death with no blame attached to anyone."

Coleman Cubs Defeat Pincher Creek Senior Club

Coleman Cubs journeyed to Pincher Creek on Sunday to play an exhibition series against Pincher Creek seniors. The Cubs won the double-header by 16-9 and 9-7 scores.

In the afternoon match the two clubs each collected twelve hits but thirteen errors were committed by the Pincher Creek club to give the locals a decisive win.

"Stumpo" Kimoto, Coleman pitcher, was the leading hitter collecting three hits, one of which was a home run.

In the evening till the Pincher Creek club turned in a fine fielding display committing only two errors. The Cubs had six scattered fielding "bobbles" which accounted for only one unearned run.

Dave Pow collected three hits for Coleman and Desbiens, of Pincher Creek was equally effective at bat.

Charlie Kitaguchi struck out eight Pincher Creek batters and received fifteen hits from his team-mates to edge out the Pincher club.

C.C.F. Party Held Meeting Monday

John Lloyd, C.C.F. candidate for the Pincher Creek-Crows Nest constituency spoke in the I.O.O.F. hall Monday evening on the advantages of the C.C.F. platform to farmers, working class and small business men.

T. A. McClay, regional director of labor, also spoke pointing out the necessity of industrial workers voting C.C.F. in condemnation of Bill 91.

Dealing with compensation, Mr. McClay pointed out that by comparison, the compensation rates payable in Saskatchewan were advanced to 75% of the total earnings of the workers in comparison of the 66-23% in Alberta. Increased pensions and temporary and permanent disabled workers had been refused by the S.C. government, leaving the matter of labor stand in this election as one without option to vote for a change of government.

Mr. McClay closed the meeting by soundly condemning the L.P.P. Party and their leader Ben Swankay.

World News In Pictures

76 ANGLER GETS 32-POUND LUNGE — John E. Barrett, 76-year-old veteran of the South African war, displays the 32-pound lunge he caught while fishing near Campbellford, Ont.

BRITISH PLAN TO PURCHASE 22 CANADIAN NORTH STARS — The British government has decided to buy 22 Canadian-made North Star 40-passenger planes, powered by four engines, above Montreal airport. The order is valued at \$14,000,000. It is a "tremendous compliment" to the Canadian aircraft industry, one authority said. Forty passengers and a crew of six can be carried by the big Canadair

North Star planes whose pressurized cabins enable them to fly at 20,000 feet. Here is one of the new North Stars, powered by four engines, above Montreal airport. The U.K. decision to abandon the "Buy British" policy for British Overseas Airways Corp. came after "exceedingly disappointing" trials of British-built Tudors. It is expected the first Montreal-built Canadair will be delivered to Britain within eight months, 15 in a year.

FLAMES SWEEP COVERED BRIDGE — One of the few covered bridges in Canada was destroyed by fire last night. It is 720 feet in length, stretching between Gracefield, Que., 50 miles north of Ottawa, Ont., and Northfield, Que., spanning the Gatineau river. No one was injured, but several persons were forced to jump 25 feet into the Gatineau river as flames swept quickly through the old timbers. No auto were hit at the time. Above is a photo of the covered bridge which is now gone.

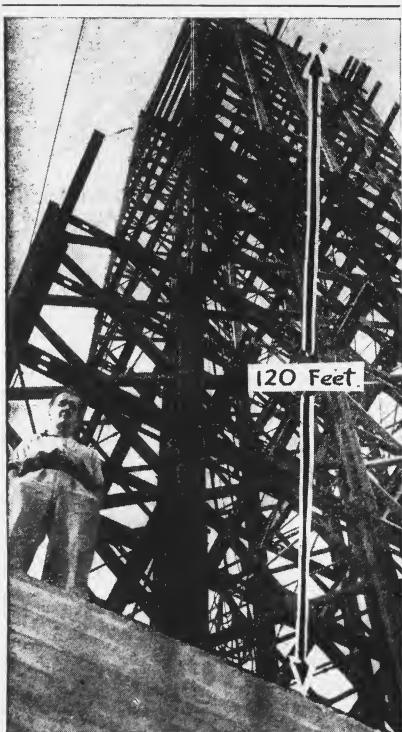

TO HEAD WORLD HEALTH ORGANIZATION — The new World Health Organization completed the main features of its machinery at Geneva, Switzerland, with the election of Dr. Brock Chisholm of Canada as director-general. Nobody connected with the W.H.O. feels happy that only \$4,736,000 will be available for the fiscal year of 1949.

HUNT VANDALS AS TOMBSTONES SMASHED — A reward for information leading to the capture of beer-drinking vandals who upset six tombstones in the Elmdale, Ont., cemetery will be offered by the cemetery board. The damage was discovered by the caretaker, Ben Smitten, who reported that a car had driven into the grounds and had knocked over several monuments weighing around 500 pounds. There is no information as yet as to who might have done the damage. Jean Atchison, (right), holds broken beer bottle, which was found in the cemetery, while Glenna Wells examines the broken tombstones.

BUILDING SET — Fred Pardo, of Chatham, Ont., the builder of a television set, looks forward to earning big money in television engineering in the United States. His other achievements are carpentry work and custom-built radio sets. Above Fred is shown with his television set.

SIX DIE AS BRIDGE FALLS IN RAPIDS — Six employees of the Ontario Hydro-Electric Power commission who plummeted 120 feet into the Ottawa river rapids at Des Joachims were drowned. The collapse of a 170-foot section of a Bailey bridge sent the men to their death. The men drowned near the spot where four workers died when a catwalk crashed last November. A three-inch-deep hole eight feet long in the concrete marks the spot where Robert Handel is standing on the Bailey bridge structure which threw the men to their death in the Ottawa river when it collapsed. An hour before it gave way he was standing there.

NAMED GRAND CHAPLIN — New grand chaplain of the Masons in Ontario is Rev. J. Simplicio of Peterborough, elected by acclamation.

MOSCOW ASSIGNMENT — John D. Warkentin, chargé d'affaires, Canadian embassy in Moscow, is a graduate of the University of Toronto and Cornell university. Before joining the department of external affairs in 1942, he was a university professor of English at University of Manitoba and prior to that English instructor at Queen's university, Kingston, Ont. 2789

LOOKING TO CANADA FOR HOMES IF U.S. TURNS THEM DOWN — Safely across the Atlantic in their tiny boat which brought them to Boston, Mass., these Latvians look to Canada and the U.S. for a home after fleeing from the Russians. Unless Canada or the U.S. admits them, they could be sent back to Russia. Here the voyagers wave from their ketch as they arrive. Their first act was to hold a thanksgiving service.

You Asked
about the
**NATIONAL
HOUSING ACT**

A regular series of questions and answers on house financing and construction.

Q I intend to build a new house but I want to leave the upper floor unfinished. Are there any regulations I must comply with if I apply for a National Housing Act loan?

A Yes, you must provide a drawing of the future layout for the unfinished upper floor and you must have a glass area, window requirements and floor joist sizes to conform to the minimum standards laid down by Central Mortgage and Housing Corporation. In addition, the staircase leading to the upper floor must be completed together with the upstairs sub-flooring.

Q Can you give me any idea of the most I should spend each year in paying off the money borrowed to build a house?

A Borrowers cannot normally afford to spend more than 20 per cent of their gross income on interest, repayment of the loan and taxes. And it might be added that this general principle is taken into consideration in the examination of all applications for N.H.A. loans.

Q Is the square foot basis a fair means of estimating costs of a proposed new house?

A Neither the square foot nor the cubic foot method is infallible as a means of estimating costs. Unless you are comparing your proposed house with a completed house on which definite costs are available, and unless the completed house is similar in size accommodation, materials, finish, equipment and location to the house you propose to build you are quite likely to be away out on your estimates. The only check on the cost of construction is to secure a definite tender in writing from a reliable contractor or builder who has figured his price from a complete set of working plans and specifications and is prepared to enter into a contract for the construction of your house for the amount stipulated in his tender.

Q Is there any regulation regarding the waterproofing of foundation walls and basement in a house being built and financed under the N.H.A.?

A Yes, waterproofing is required unless you can produce satisfactory evidence that it is not necessary. Where it is required, foundation walls must be made waterproof by applying a coating of coal-tar pitch or an asphaltized or other waterproof membrane to the outside of the walls below grade or by other approved method. If your basement floor needs to be waterproofed, any approved method may be used. And all concrete block foundation walls enclosing excavated areas must also be waterproofed.

Q I am thinking of applying for a National Housing Act loan. What do I do?

A The first step is to see or write to the branch office of Central Mortgage and Housing Corporation in your area or to the nearest representative of an approved lending institution. You will be given copies of a questionnaire which should be filled out in triplicate and forwarded to one of the lending

institutes which is prepared to make loans in your district. If your project seems satisfactory, you will receive the necessary application form. This, too, should be sent to the lending institution and must be accompanied by details of the lot on which you propose to build, plans and specifications of the house and an estimate of the cost of the completed project. If you are planning to apply for a N.H.A. joint loan, it is well to keep these three points in mind: (1) Plans and specifications must be approved before construction is started. (2) applicants for joint loans must be able to provide from their own resources the amount by which the actual cost of the house exceeds the loan, and (3) present conditions affect both the cost and type of construction.

Questions on house financing and construction may be directed to this column and every effort will be made to answer them at an early date.—Editor.

Liberal Candidate Named at Lundbreck Convention

About thirty-five persons attended the Liberal convention in the Lundbreck hall Wednesday, July 28, to nominate a candidate to represent the Pincher Creek-Crow's Nest constituency. The night was very bad and many were unable to come on account of the pouring rain and a strong gale blowing.

It was a most enthusiastic

convention. Chairman was F. Holmes of Pincher Creek; secretary-treasurer, Ken McDowell of Beaver Mines. An association was formed with F. Holmes elected chairman, F. Lamay of Blairmore, vice-president; K. McDowell, secretary-treasurer. Members of the executive are: T. Castigan, J. W. Rutherford, T. V. Hammond, J. McIntyre, Jr., L. Herbig.

The convention went on record to heartily approve the Liberal platform and full confidence was voiced in Leader Harper Prowse.

A nominating committee was

appointed to choose candidates. Members were: J. J. McIntyre, sr., C. Sartoris, A. M. Densmore, W. Marcellus, F. Robbins, F. Lamay and H. Bossenberry.

Prospective candidates chosen were John Kubasek, miner of Bellevue; T. J. Costigan, lawyer, Blairmore; T. V. Hammond, farmer of Pincher Creek, who did not accept nomination; J. W. Rutherford, insurance agent of Pincher Creek; Ken McDowell, farmer of Beaver Mines, and Ken Munroe, retired storekeeper of Pincher Creek.

RUTHERFORD CHOSEN

Secret ballots were taken and final ballot showed J. W. Rutherford was the choice of the meeting to represent the constituency.

J. J. McIntyre, sr., mine superintendent of Coleman gave an interesting speech and spoke of the fine qualities of all candidates. He said he had never seen a finer slate of men put before a Liberal convention in the many he attended. Several others spoke and all expressed the same views and pledged full support to Mr. Rutherford.

Wider Medical Service

THE NEED FOR IMPROVED MEDICAL SERVICE for the people who live in remote districts of the prairie provinces and the North West Territories has been frequently pointed out in the press and by others who are interested in public health and welfare. Many of the people who live in settlements situated far from railway lines and good highways lack adequate medical care in cases of serious illness or accidents. In spite of the fact that frequent "mercy flights" are made by the R.C.A.F., and by chartered planes, in Saskatchewan, two government-owned air ambulances are operated from bases in Regina and Prince Albert, and they do excellent work in the areas which they serve. There are many people, however, who are of the opinion that there should be a service of this kind, organized by the government, for the benefit of all those living in isolated districts in the Northwest.

Units Operate In Australia In Australia, where there are also many remote settlements, several medical bases have been established. Each one of these bases has a well-equipped hospital, and a "flying doctor," who visits patients and can bring them by air to the hospital if that is necessary. This service, operated for the benefit of people living far from railways and highways, was considered necessary by the Australian government to encourage new settlers to enter sparsely-populated areas. Services of a similar nature would no doubt be an inducement to people contemplating settling in such districts here. There is still much productive land which it is in the interest of the country to settle and develop, and provision of assured medical service would undoubtedly encourage people who might otherwise hesitate to live there.

Splendid Work Has Been Done Rural doctors, the Red Cross and medical missionary workers do splendid work in caring for the sick in isolated districts, but there is still, no doubt, a need for "flying doctors," to bring help which cannot be provided in such places, and to visit patients where there is no established medical service. Dr. Mary Johnstone, M.B.E., who was for some time a medical doctor in northern Alberta, has expressed the opinion that many lives could have been saved in the district which she served, had there been facilities for bringing help by air in cases of critical illness. In addition to being an inducement to prospective settlers, the introduction of medical service by air would be a humanitarian measure which would benefit the many people now living in the northern parts of the western provinces. This is one of the questions deserving the consideration of those interested in the welfare of our people.

SELECTED RECIPES

PLAIN MUFFINS

2 cups flour
4 tablespoons sugar
2 tablespoons fat
4 tablespoons baking powder
1 teaspoon salt
1 egg
1 cup milk
Sift dry ingredients, add gradually to egg and milk until beaten and fat melted. Grease muffin tins; fill 2/3 full. Bake about 25 minutes in a hot oven (400 deg. F.). Half a cup less of milk may be used and 1 cup of berries added to the mixture.

SAFETY SALMON
1 cup baked cooked salmon or canned salmon
1 cup stale bread crumbs soaked in 1/2 cup scalded milk
1 tablespoon butter
1/2 teaspoon onion juice
2 egg yolks, beaten
1 teaspoon lemon juice
2 egg whites, beaten
Combine ingredients in order given, folding in the starchy beaten white last. Place mixture into a well greased and crumpled pan and bake in a moderately hot oven or steam the mixture.

IS PROVING SHORT SIGHTED POLICY

The Winnipeg Free Press says Canada cannot now afford this fetish about young employees. There are already signs that it is being abandoned in the recesses of business. The proposition cannot be justified even on the most selfish grounds. Our need to increase total production is too great to turn away skilled, experienced workers, at any rate who happen to have passed their middle forties.

VALUED USE FOR SALT
Salt is used for scores of things, including making plastics, nylon yarns, dyes, drugs, synthetic rubber, and photographic materials.

DOES INDIGESTION WALLOP YOU BELOW THE BELT?

Help Your Doctor? "S" For The Kind Of Relief That Helps Make You Rainin' Te Go More than half of your digestion is done before the belt—in about 25 feet of bowel. So why not let him do it? By removing the belts, digestion in the stomach AND below the belt is greatly improved. What you may need is Carter's Little Liver Pill. Take one Carter's Little Liver Pill before each meal. Take them according to directions. They help wake up a larger flow of digestive juices. Carter's Little Liver Pills AND bowels—Help you digest what you have eaten.

Even most folks get the kind of relief that makes you feel better from your head to your toe. Just take one Carter's Little Liver Pill from your druggist—\$5.

FUNNY And OTHERWISE

"Do you love me, darling?"
"You know I do, Harry."
"Harry? My name's Sam."
"Of course! I keep thinking today is Monday."

Edith (just engaged): He told me I was interesting and so beautiful.

Julia (jealous): Surely you are not going to trust yourself with a man who begins developing you even at the commencement of his courtship.

She had been introduced to a radio newscaster. In parting, he advised her to be sure to listen to his radio program at breakfast time if she wanted to know what's behind the headlines.

"I know what's behind the headlines," said the man. "At breakfast time, she said, 'My husband'."

Mother (from upstairs), "Julie! Are you spitting into the fishbowl?"

Junior: "No, Mom, but I'm closing close."

The teacher of the village school was leaving and was being presented with a cloak and a garment. The minister who was presenting these said, "The contents of the purse will in time disappear but this clock will never go."

He: "That girl reminds you of the country—of a cornfield in early spring?"

She: "Yes, she's a bit of a scarecrow."

"No, I cannot marry you," said the smart young lady to her suitor. "But I'll always admire your good taste."

"What's become of all the young men Miss Port used to have in her train?"

"Oh, one by one they switched off."

Youthful Father: "Our baby is beginning to recite 'Eaa, ba black sheep, have you any wool?'"

Neighbor: "And he's only eight months old?"

Father: "Well, he doesn't say all of it yet, but he's got as far as the 'Eaa, ta!'"

BABY WAS ATTENDED BY FOUR GENERATIONS

FLIN FLON, Man. When Baby Diana Heather Raven was baptized she was attended by four generations. Mr. and Mrs. Fred Raven, Mr. and Mrs. R. F. Horne of Vancouver, and her mother's mother's parents, Mr. and Mrs. Dan Lysak, of Winnipeg, making four generations in one direct line.

PREFERS POLICE DUTY TO REPORTER'S JOB

EDMONTON — Jack White, police reporter for the Edmonton Bulletin, found the work so interesting he resigned the writer's job and joined the force. The paper's 40-hour week, and like most rookies starting out on a "graveyard shift" from 11 p.m. to 7 a.m., he says all he sees in his sleep are doors and more doors.

CORIN—A keen advocate of specialized crops for the West, Ted Sundal, secretary of the Taber, Alta., Irrigation District, demonstrates the growth of canning corn.

Import Ban On Vegetables Will Not Be Lifted

OTTAWA.—Forecasts made by a number of eastern newspapers that the import ban on all U.S. fruits and vegetables would be removed simultaneously with the lifting of the 15 to 20 per cent export tax proved unfounded. Nevertheless, it is well known in price board circles that this barricade against fruit and vegetable imports is due to be lifted at the moment when the Canadian crops are disposed of.

There is strong pressure already being exerted by vegetable and fruit growers to maintain the import ban in some modified degree. They are bringing the argument that, as the result of the fruit and vegetable ban, there was a huge increase in Canadian health development as the result of the禁令.

In a measure, this is already done by means of seasonal tariffs, none of which, however, operated so effectively as the total prohibition of the ban imposed last November. The fruit and vegetable growers contend that no unfavorable effects on Canadian health developed as the result of the禁令.

A measure, this is already done by means of seasonal tariffs, none of which, however, operated so effectively as the total prohibition of the ban imposed last November. The fruit and vegetable growers contend that no unfavorable effects on Canadian health developed as the result of the禁令.

CENTRIFUGE TESTS WITH HUMAN GUINEA PIGS REVEAL FACTORS TO SAVE JET PILOT LIVES

READY TO "FLY"—U.S.C. student in G-suit and new type helmet prepares for run in centrifuge.

By ANDREW R. BOONE

Central Press Canadian

LOS ANGELES.—Men sit on the edges of whirling centrifuges to test anti-blackout suits, have X-ray pictures taken of vital organs at six Gs and higher, and otherwise pose as human guinea pigs that medical scientists may learn what takes place in the human organism during conditions of spins and sharp turns.

Over here, men sit on the edges of whirling centrifuges to test anti-blackout suits, have X-ray pictures taken of vital organs at six Gs and higher, and otherwise pose as human guinea pigs that medical scientists may learn what takes place in the human organism during conditions of spins and sharp turns.

Largest of these machines is the electrical whirler at the University of Southern California. In two seconds—count 'em—it's 47-foot long arm speeds up to 60 miles an hour. Human riders zip about the perimeter of the room something like living comets.

During the war these G-runs met their fate in the sky, and were classified as one of the number one priorities by the office of scientific research and development.

For about three years, the staff worked closely with the aeronautical units at Wright Field, the Mayo clinic, the navy. In collaboration with the navy medical department of the aircraft carrier service of the Pacific fleet at San Diego, the project contributed importantly to development of the jet plane service.

Its effectiveness has been proved many times in pull-outs during combat manoeuvres and dog fights.

Now the U.S.C. researchers are plodding ahead along new paths. Their present studies relate mainly to the development of the G-suit itself, as well as the G-suit and its implications, then to the new horizons.

The G-suit, as most of us know, enables pilots to overcome the pull of increased gravity. In manoeuvres creating a force of more than about four times the earth's gravitational pull on the flyer's body (4-G), blood is drained from the head into the lower parts of the body.

Action Results

The results might be compared to the effect of a powerful spring being wound in the feet. This phenomenon may also be likened to a rock tied to a string and whirled around the head, the faster it whirls the heavier the rock feels.

At 10 Gs a 200-pound man weighs one ton. At 8-Gs his blood is heavier than molten iron. The heart can't pump against this increased force or weight.

Without the suit, the pilot's vision becomes blurred and dim. His senses are dulled, which may be "blackout" or lose all vision. He may even lose consciousness for a brief critical period during the pull-out or the turn.

However, an ingenious valve automatically lets air into five bladders in the suit located at the flyer's abdomen, thighs and calves.

The higher the G becomes, the greater the air pressure in the bladders and the lower part of the body is squeezed to the extent that blood

is not pooled in the lower extremities. This permits the heart to pump it into the head, thus maintaining a supply of oxygen to the brain and eye tissues.

The suit increases the pilot's blackout tolerance by one and one-half Gs and if he tenses and strains, three Gs or more are obtained.

Where he may blackout at four or five Gs without the suit, he may withstand eight or nine Gs with it, leaving flight presumed.

Studies show that G acts as a boost on the weight of the arm and facilitates movements, especially toward the body.

The suit's judgment, however, is impaired when gravity pulls in.

In pulling the stick with a force of 20 pounds, experienced pilots repeatedly add the 20 to the 14 pounds already applied to their bodies, exerting a total force of 34 pounds.

In the air, such overcontrol might pull the wings off a plane. In nearly all cases, the centrifuge-flyers underestimate their pull on the stick by about the amount contributed by the arm weight under the influence of multiple gravity.

With the advent of transonic aircraft and later supersonic machines, negative G and accurate estimates of forces applied to controls will pose acute problems. However, solutions to these, as well as physiological problems, will come through continuing ride on the centrifuge.

Even the heart is lifted a small amount.

Can a pilot handle the stick under G-influence as efficiently as in normal flight? The doctors found he actually exerts force more readily.

Studies show that G acts as a boost on the weight of the arm and facilitates movements, especially toward the body.

The pilot's judgment, however, is impaired when gravity pulls in. In pulling the stick with a force of 20 pounds, experienced pilots repeatedly add the 20 to the 14 pounds already applied to their bodies, exerting a total force of 34 pounds.

THIS CURIOUS WORLD BY WILLIAM FERGUSON

Action Problems

Inflate the suit, the pressure applies to the abdomen raises the diaphragm more than three inches.

Japan Using Arsenal For New Industries

YOKOSUKA, Japan.—Textiles, instead of torpedoes, paper instead of planes, and ships instead of battleships here where Japan once had her largest naval operating base.

Fifty-five new industries, many of them housed within the once sealed and tightly guarded confines of the base area, are turning out a variety of goods ranging from cloth to clocks.

The harbor, which ones admitted only Japanese warships, is an anachronism for commercial vessels. The walls which once hid Japanese naval secrets have been bulldozed away.

The five-mile length of the establishment, from the naval air arsenal on the north to the industrial base on the south, is open to the public except for a small area where the United States Navy operates.

The Japanese built missile submarines here, plus some planes and many torpedoes. At one time the base employed 70,000 persons.

American raiders hardly touched Yokosuka. The United States Navy found machine shops, cranes, docks and rocks practically intact after the surrender.

Now the machines are used for peaceful production or to keep in good shape the United States naval vessels on duty in Japanese waters.

GEMS OF THOUGHT

Every good gift and every perfect gift is from above; and cometh down from the Father of lights, with whom is no variableness, neither shadow of turning.—James 1:17.

Look upon every day as the whole of life, not merely as a section; and enjoy and improve the present with out washing, through haste, to rush in to another.—Richter.

Faith in divine Love supplies the ever-present help and now, and gives the power to "act in the living present".—Mary Baker Eddy.

The law of nature is, Do the thing, and you shall have the power; but they who do not the thing have not the power.—Emerson.

The present is never our object; the past and the present we use as means; the future only is our end. Thus, we never live, we only hope to live.—Pascal.

WORLD HAPPENINGS BRIEFLY TOLD

Rutland constabulary, the smallest country force in England, celebrates its centenary this year.

The government in Victoria is considering naming a Chinese inspector to assist Chinese retailers in complying with sales tax regulations.

Lowell Street, in Boston's West End, has an unusual concentration of antique dealers. Only two blocks long, the street has 29 antique shops.

Robert M. Wilson of Gladstone, Man., was named a director of the United Grain Growers, Ltd. He succeeds R. S. Law of Winnipeg, retired.

A 400-photograph aerial survey of Edmonton has been completed and will be the basis for the city's town planning, zoning and construction policies.

Prices of skeletons are going up. They now sell for \$30 against \$20 in prewar days and medical students in Britain complain it handicaps their studies.

A year ago thieves entered the chancel of the parish church at Beaconsfield, England, and the Persian rug in two and stole half of it. Recently a thief stole the other half.

The monument to Queen Victoria, long a subject of controversy in Elie, was removed from the lawn of the parliament buildings in Dublin and put into storage.

BUFFALO WOMAN MAY HAVE LAST LAUGH

BUFFALO, N.Y.—Mrs. Karl A. McCormick paid \$125 for a shabby painting at an auction seven years ago.

She took it home, washed it and found a name in the lower right corner—Goya.

"All I can remember now," she says, "is that everyone laughed and said it was a fake or possibly a painting by some obscure artist, also named Goya."

Three art experts examined it recently and pronounced it a genuine Goya, possibly worth \$20,000.

DEMONSTRATIONS on how to fit and show livestock were part of the educational program of the Saskatoon Exhibition. Here is Fred Thompson of Fairlight, Sask., explaining how to give Jerseys the "beauty" treatment before presentation to the judges.

SAFE SPEED FOR ALL CAR DRIVERS IS EXPLAINED

ST. CATHARINES.—What is a safe speed? Suppose, says the St. Catharines Standard, you are rolling along in your car, driving just under the speed limit. Suddenly another driver hogs your right-of-way at an intersection—or a child darting into the street—or another car forces you to swing wide on a sharp turn—or a driver loses his grip on the emergency controls. Could you keep your car under control or stop in time at the speed you are travelling?

The monument to Queen Victoria, long a subject of controversy in Elie, was removed from the lawn of the parliament buildings in Dublin and put into storage.

SCIENTISTS HUNTING FOR MAGNETIC POLE

OTTAWA.—Scientists from the Dominion Observatory have taken off again on their annual hunt for the strangest game in the northland—the North Magnetic Pole.

This year the expedition, headed by Paul H. Serson, of Ottawa, hopes to get enough inside information on the pole to enable completion of the first reliable magnetic charts of Canada's Arctic regions.

WEDDINGS

DOUBLE WEDDING
MISSION — ANDERSON
LINDERMAN — ANDERSON

The Holy Ghost Church, Coleman, was the scene of a very pretty double wedding on Saturday, August 7 when Astrid, second youngest daughter of Mr. and Mrs. Axel Anderson was united in marriage to Glen, only son of Mr. and Mrs. Joe Mission, and Alice, third youngest daughter of Mr. and Mrs. Axel Anderson was united in marriage to Paul, oldest son of Mr. and Mrs. W. Linderman, of Hillcrest.

The brides were given in marriage by Mr. John Kinnear and Mr. Albert Faувille, of Coleman. Rev. Father L. Sullivan officiated at the ceremony.

The brides looked charming in matched gowns of white satin, with lily-point sleeves, high neck-lines and trailing veils. They both carried a bouquet of roses.

Bridesmaids for Astrid were Miss Evelyn Mission, of Hillcrest, who chose a blue gown and Miss Ida Ancelot, of Coleman, wearing a pink gown. Mr. Jack McGinnes, of Bellevue, and Mr. Robert Dau, of Bellevue, were best men.

Bridesmaids for Alice, were Miss Rose Linderman, of Hillcrest, wearing a blue gown and Miss June Anderson, of Coleman who chose a pink gown. Mr. Steve Funfer, of Bellevue, and Mr. Matt Linderman, of Hillcrest, were best men.

Dinner was served at the Greenhill Hotel, Blairmore, with thirty-seven guests present. Mr. John Kinnear acted as chairman.

Rev. Father Sullivan proposed a toast to the two beautiful brides which was accepted by the grooms. Mr. Jack McGinnes and Mr. Steve Funfer said a few words in honor of the happy couples. The table was centred with two three-tiered wedding cakes.

A reception was held in the Catholic Hall at 4 p.m. with about 150 guests present.

The happy couples have taken up residence in Coleman.

PIPLACZ — MICHALSKY

The Holy Ghost church, Coleman, was the scene of a very pretty wedding on Saturday, August 7, when Wilhelmina, second eldest daughter of Mr. and Mrs. Wm. Michalsky, of Coleman, was united in holy matrimony to Stanley Pyplacz, only son of Mr. and Mrs. Roman Pyplacz, of Creston. Rev. Fr. Leo Sullivan performed the ceremony.

The bride looking beautiful in a long satin gown with trailing veil, entered the church on the arm of her father, carrying a bouquet of roses. Her attendants were Alice Michalsky, sister Henrietta Pyplacz, groom's sister, Margaret Zurwick, of Vancouver, Helen Hazuka and Stella Michalsky, of Lundbreck. Flower boy and girl were Robert and Roberta Vanoni, of Blairmore. The bride's attendants wore pastel shaded gowns with chapel veils and each carried a bouquet of assorted flowers.

Matron of honor was Mrs. Albert Kropinak, sister of the bride from Seattle. Best man was Mr. John Binda.

Supporting the groom were Joe Sikora, Joe Galicia, Willie Habdas, Frank Ghrinly and Bud Stanovich.

A reception was held at the home of the bride's parents at Sentinel. A four-tiered cake centred the table.

FORMER COLEMAN
GIRL MARRIED

Margaret Lillian LeRoy, who left Coleman high school in 1928 to enter Medicine Hat hospital school of nursing, and latterly living in Penticton, was married on August 5 to Mr. John Robert Armstrong, publisher of the

Summerland (B.C.) Review. The bride is the eldest daughter of Mr. and Mrs. H. T. Hallwell, of Macleod.

She was graduated from Medicine Hat in 1932, and was on the Pendleton hospital staff prior to the war. She served as a nursing sister in the R.C.A.M.C. and was in Oldenberg, Germany, at the war's end. Her husband, who was a captain in the Loyal Edmonton Regiment, was wounded at Ortona, Italy, and later was invalided to England.

The brides were given in marriage by Mr. John Kinnear and Mr. Albert Faувille, of Coleman. Rev. Father L. Sullivan officiated at the ceremony.

The brides looked charming in matched gowns of white satin, with lily-point sleeves, high neck-lines and trailing veils. They both carried a bouquet of roses.
